## **GNSS Technology**

The BRx6+ updates the Athena<sup>™</sup> GNSS RTK engine with triple-frequency tracking on multiple satellite constellations for robust GNSS RTK with Real Time Networks and local base stations. Users will experience fast initialization to Fixed RTK, as well as stable and repeatable performance in varied conditions. The BRx6+ also has integrated Atlas L-Band for Precise Point Positioning with a subscription. The lightweight BRx6+ receiver may be used as a Base or Rover on demand.

### **Wireless Communications**

The BRx6+ has updated to a 4G Penta-Band LTE cellular modem in addition to an integrated UHF transceiver, Wi-Fi and Bluetooth for modern wireless capabilities. Carlson's Listen-Listen service allows Base/Rover operation via the cellular modem for better correction transmission ranges. In addition, SurvCE/SurvPC provides the option to utilize the cellular modem or Wi-Fi in the hand-held computer via the SurvCE Data Collector Internet feature.

## SurvCE/SurvPC

Carlson's SurvCE/SurvPC is combined with the BRx6+ on either the Surveyor 2 field computer or RT3 Windows tablet for a full field solution. SurvCE/SurvPC has full BRx6+ configuration, system status and data logging via Bluetooth. For improved Quality Control and efficiency, SurvCE/SurvPC features an intuitive Live Digital Level with an auto record option when the BRx6+ is level. With SurvCE/SurvPC, users leverage Carlson's expert team to expand features for quality and productivity.
